*Eighteen-year-old Rieka Spring has been determined all her life to piece together Gardian's fragmented historical record and reverse the oppressive Scorpio Code. Violating the Code's "holy orders" is punishable by death, and Rieka's broken the first tenet: never show emotion. Unless she wants to be murdered for displaying her anger against the law's will, she must find and prove that a mythological weapon is more than a story before she's killed by the hauntingly familiar assassin sent to stop her.*

*Filled with magical mysteries, found family, forbidden powers, and strong, rebellious women, The Age of Scorpius is a unique blend of the sword & sorcery, dystopian, science fantasy, and romance genres. This book is narrated by a neurodivergent sapphic protagonist, and features a diverse cast of characters. It is intended for audiences 15+ with its placement in the upper young adult genre.*
